Po razsežnostih stasite postave Prisank nimā primere v Vzhodnih

Julijskih Alpah. Z veliāanskim oknom, Prednjim oknom, širokim

oknom, ki ga imajo tudi ljudje, in Hanzova in nekotno imajo

Kopačarjeva pot skozi Prednje okno, katerima se na visokem

vrhu, skozi gotsko oblikovano okno v Zadnjem Prisanku (2392 m)

Judging by its colossal stature, Prisank is the champion of the

Eastern Julian Alps. With its giant eye, the Front Window (Prednje

okno), the mountain has a face like a Cyclops. The mountain routes of Hanzova pot (Hanza

Route) and the newer Kopačarjeva pot (Kopačar Route) run across

the wide, jagged rock face through Prednje okno. The steep lubileina

Prisank is impressive! And it's hole!! :-)

POT MIRU
OD ALP DO JADRANA

Na poti od Alpa do Jadrana vas bo vspejše prevzel mir, ki za te kraje ni nič redno znamenje. Tokovi agorodine in Sotce, čudajlepši alpejski azil na svetu, sta hujša in nepredvidljiva. Stilec je pa, s svetovno vojno porušeno, grozljivo dediščina v Port na Alpi od Alpa do Jadrana. Vse od Jalpjskih Alp Brede in Krna do Jadranskega morja nastopajo stena črna in valovito k odlični ali črni cunami.

Dobitke zgodbo vsote in mila v (prijemni) navi. Odravite jo na vsak kot 300 kilometrov dolgi pohodniški poti, sprehajni na ozemlju Slovenije in Italije, sami ali z izkušenimi vodniki.

WALK OF PEACE
DALLE ALPI ALL'ADRIATICO

Dapprima, sul cammino dalle Alpi all'Adriatico, sarete pervasi dalla pace, che per questi luoghi non è sempre stata consueta. I corsi della storia e dell'Itinerio, uno dei più bei fiumi alpini al mondo, sono frangenti e imprevedibili. Un secolo dopo la Grande Guerra, collegiamo il patrimonio storico in The Wall of Peace dalle Alpi all'Adriatico. Lungo tutto il percorso dalle Alpi Giulie attraverso il Collio e Brda ed il Carso fino al mare Adriatico, piachiamo il ritmo del tempo e lasciamo al sole e alla riflessione.

Vivete l'esperienza di una storia di guerra e di pace in una natura eccezionale. Scopritela su un percorso escursionistico lungo più di 500 chilometri che attraversa il territorio di Italia e Slovenia, da soli o con una guida esperta.

DER WEG DES FRIEDENS
VON DEN ALPEN
BIS ZUR ADRIA

 Auf dem Weg von den Alpen bis zur Adria werden Sie von einem Frieden eingenommen, der für diese Gegend nicht immer gewöhnlich war. Die Strömungen der Geschichte und des Sozialen Flusses sind stürmisch und unvorhersehbar. Ein Jahrhundert nach dem 1. Weltkrieg vereinen wir geschichtliches Erbe in den Weg des Friedens von den Alpen bis zur Adria. Von den julischen Alpen über Brda, Collio und den Karst bis hin zur Adriaküste bereichern wir den Rhythmus der Zeit und laden zur Erholung oder zum Nachdenken ein.

THE WALK OF PEACE
FROM THE ALPS
TO THE ADRIATIC

The peace has not always been as natural in these places. The wheel of history and the course of the Sava/Drava, which ranks among the most beautiful alpine rivers worldwide, were turbulent and unpredictable. A century after World War I we have linked the historical heritage into the 'Walls of Peace from the Alps to the Adriatic'. All from the Julian Alps across the Karst and Collio Hills, the Krka and Gail to the Adriatic Sea we strive to add colour and pace to life and combine villages with peace.
